

Grade 3/4 Inquiry Learning Display at Soft Café

This term the year 3/4 students from Herne Hill Primary School have immersed themselves in the topic;
You're going WHERE in Australia?

The students have studied an array of Australian destinations; from north (The Daintree Rainforest) to the south (Port Arthur) and east (Sydney Harbour Bridge) to the west (Wave Rock).

Over the last 3 days the students have showcased their learning at Soft Café in Minerva Road and have been really excited that people from all around the Herne Hill community have come along for a glimpse of their work. The year 3/4 teaching team say well done to everyone for the effort they put into their learning.

You're going WHERE In Australia?

On the 28th June my class (3/4D) visited our learning about your going WHERE in Australia? Our work was part of a display in the Soft Café.

When we got there my parents were also there looking at our work. I gave them a brochure and a card.

Mrs. Hodge took photos of all of us with our own project. My dad also took a photo of me.

When it was time for mum and dad to go back home I said good bye to my parents and we went back to school and talked about our visit to Soft Café

By Ragi J 3/4D

Soft Exhibition!

I feel that all grade 3/4s posters were amazing at Soft Café, and I liked mine too.

When we got there the parents were there. We handed our brochures out to the parents and they took them. My Mum and Oakley were there too.

My favourite piece of art was Jeffrey's pink roadhouse. I liked it because of the colours he had. They were pink and orange.

My second favourite one was Ethan's which was about the three theme parks in Queensland.

My third one was Indie's and Connor's which was the Sydney Opera House.

I really liked everyone's!

By Logan Z 3/4D

We went to Soft Café to see our posters we did about Australian Landmarks. I was surprised because they were all hung up beautifully and everyone did an amazing job creating them. I also thought the 3D art works were very pretty. I really liked the way some people had real sand on their creations. I'm extremely glad we were able to use the Café because people can eat while looking at the posters.

I was also amazed how lots of people came because I just didn't think that many people would come. If I could go there again and do this, I would.

You're Going WHERE In Australia?

Hi my name is Jarrah and on Wednesday the 28th of June grade 3/4D visited our inquiry learning about You're Going WHERE In Australia? Our work is part of a POP UP display in Soft Café.

I really enjoyed people looking at our work in Soft Café. My learning was about Bells Beach and my partner for this activity was Bailey.

When we all went over to Soft Café to look at our work I handed out heaps of brochures and little pictures of Bells Beach, it was really fun!

The 3/4's love having their work on display at Soft Café and people taking their free brochures and little pictures.

These are the opening and closing times for Soft Café 7.00AM -4.00PM. While you're having a look at our work in Soft Café you can have a drink like a cup of tea a coffee or a hot chocolate, you can also have something to eat such as a brownie or some chips.

Grade 3/4 Inquiry Learning Display at Soft Café

On Wednesday the 28th of June all grade 3/4s went to Soft Café for the 3/4 'you are going WHERE in Australia' project. It was divided into three groups, 3/4 L in the morning, 3/4 in the middle of the day and 3/4 O in the afternoon.

On the 28th of June, 3/4 L went to Soft Café because of our Australian Landmark project. All the grade 3/4 students had set up their projects at the back of Soft café. 3/4 L went there Wednesday in the morning, 3/4 D went after recess and 3/4 O went after lunch. We went out of the school gates and made our way to soft. When we got in we found our station and set up. When we were ready to start handing out, my group waited for at least ten minutes before we got our first customer. Our first customer was Kaelyn then Miss Oxley was next. Soon a mum and their child came then after that my mum came to look at my project. Later it was time to go back to school. Overall it was a great morning!

By Laura G 3/4 L

Hello everyone, I am here to talk about the café soft that the grade 3/4 students went to. The reason we went to Soft café was because our projects were set up there. So we walked out the school gate at 9:15am sharp! We waited at the pedestrian lights then walked over to Soft café. When we got into Soft we saw everyone's projects and I did not mention yet that our projects are about Australian Landmarks. I did the Great Barrier Reef with Maddie and Monique. It was the best project ever. I had so so so much fun. If I had to do this again I would try not to muck around as much, I would like to give a big thankyou to Mr Durran, Miss Oxley, Ms O'connor, Mrs Hodge, Jo, Mrs Baverstock and Soft Café for making this happen!

By Rozy H 3/4 L

Today Miss Oxley's grade 3/4 students went to Soft Café to show the mums and dads our projects. We left about 9:15am, we walked to Soft Café. Mum and I walked together and we went inside and it was noisy. We showed people our projects. I showed teachers and little kids and my work project was on The Great Barrier Reef. I worked with Rozy and Maddie and we all had fun. I showed mummy work this is what we did, a sculpture and a poster, we also had an ipad presentation.

Monique T 3/4 L

Today 3/4 L went down the street to go to Soft Café with our inquiry projects. We set up out the backroom at Soft Café, a lot of parents and customers came and walked around and looked at our inquiry.

Bodie's mum came to see my inquiry, I gave her a brochure and Gus's mum came as well, I also gave her a brochure. It was great showing my inquiry to everyone at Soft Café.

Tarnia 3/4 L

In the morning of the most exciting day Wednesday, my group and I headed over to Soft Café with our flyers that were filled with important information. We had a word search, and an iPad show about the Blue Mountains and the iPad show had animations. My favourite animation was when at the end of the slide went round and around and around getting smaller and then I had a customer named Kaelyn. She watched our show and gave us a high five each. Then Joel, Laura and I had more customers. Miss Oxley came into our stall and I told her some of the fun rides such as cable rides, horse rides, and other rides. Laura showed each customer our show, and she read it for them. An unexpected visitor arrived and we showed her everything. Joel gave people the flyers and Laura gave them the word search, and I simply talked to them. After an hour, we only had 5 more word searches and about 20 more flyers. Then Joel, Laura, and I packed up, and lined up to go back to Herne Hill. Then we passed two cute dogs. Our grade crossed the road through the secret teacher gate. That was really fun! We went back to our class room and did writing!

Yuva R 3/4 L

3/4 L went to Soft Café at 9.20 to 10.15. First my group got our handout and went through the secret passagel shortcut to Soft Café. I only had 6 customers.

Joel M 3/4 L

Grade 3/4 Inquiry Learning Display at Soft Café

On the 28th of June, 3/4 L went to Soft Café to show off our inquiry projects. I was nervous. I was not sure if my partners, Abbey and Charlee were nervous too. We had fact files and handouts left over at the end of the expo. It was a fun morning!

Taylah B 3/4 L

3/4 L walked to Soft Café for our Australian Landmark Expo. Our inquiry project this term was called 'you are going WHERE in Australia?' My landmark was Bondi Beach, the people that were in my group were Mia, Maddison and myself. Three customers came to our station and we gave them a handout and they asked us questions. I enjoyed it a lot!

By Naomi S 3/4 L

Just as the pedestrian light turned green, 3/4 L

(My grade) went to Soft for their landmark Expo. So let me tell you what happened. At 9:15 am everyone grabbed their iPads and handouts. Everyone lined up in two lines. We started walking down the stairs outside our classroom. Then we went to a path behind our classroom with a gate. Then we went to the pedestrian lights then we crossed and we went to Soft. We waited inside Soft so everyone behind could catch up then we went inside to the back and it was noisy. Then we started giving out handouts and I played my presentation on my iPad. Then my friends started giving out handouts, while I played my presentation. When my group ran out of handouts, we went around and looked at everyone else's landmark. Then at 10 am, we went back to our classroom, and then we did exciting writing.

Jade B 3/4 L

On Wednesday all of 3/4 L went to Soft Café with their art sculptures and went to the backroom and stood next to their project. They got ready for their customers to come. We had five customers that come over to ours. Our project was on Falls Creek in Victoria. I had an awesome time!

Charlee S 3/4 L

First thing in the morning we did our morning routine and got our handouts and iPads ready to leave for Soft Café then we got into two lines and left through the secret passage/short cut. We stopped at the lights and crossed the road. We walked past the Minerva Road shops and entered Soft Café. As we entered, we saw some people having a nice cup of tea, we headed down to the back room. All groups got themselves ready and we started to talk to customers about our projects. Overall it was awesome!

Cooper H 3/4 L

"Wow, we have no more brochures!" I said to my team Maddie R and Naomi. When we arrived at Soft Café we walked along the back wall trying to find our poster. For inquiry my team and I chose Bondi Beach. "Wooaahh" I said to my team mates. "It looks so cool with all the colourful posters up on the wall". Then we set up our brochures and colouring sheet/word searches. Right then we had our first customer, our first customer was Maddison's Nan. She asked us some questions about Bondi Beach. Then unfortunately she has to leave. So we all said thank you for coming and goodbye. The next customer was Gus' mum. "What sort of things can I do at Bondi Beach" she asked. "The most popular thing to do is have a picnic with your family, but you can also surf, play with beach balls or any balls" we replied. Our next customer was the beautiful Miss Oxley. She came and asked us questions and we answered. Next Kaelyn asked questions and we did the same.

Soon we packed up and headed back to school. Overall it was a fun and exciting 1 hour of my life.

By Mia F 3/4 L

3/4 L went to Soft for an inquiry project on Australian Landmarks. Mine was Phillip Island, Victoria and I had to man my station. I had 4 customers and they were very satisfied. My mum and my little brother Ned came. One customer asked me a question and I tried to look it up but unfortunately I had no internet connection and was very busy at Soft, so so so busy! About 10.15 we went and got back to school to do recount writing.

Our Trip to Soft

Yay it is the 28th of June 2017 and that means we have to go to Soft for our expo!!! The expo is about our Australian Landmark. My Australian Landmark is the Grampians National Park. Ok here is the real reason why I am writing. At 9.15 am we left to go to Soft. We arrived at Soft 5 minutes later that means it is 9:20 am. I was roughly in the middle of the line. After we all walked in we had to find our work, my work was on the left hand side next to the play area. After all that, we started to set up our handouts and our iPads if we had a Spark Video. At first I did not get any customers, but then about five minutes later my first customer was Gus's mum, and she asked me a few things about the Grampians National Park. I offered her a handout, and she said yes and then she had to leave. After Gus's Mum I had 6 more customers and ran out of handouts. And in the end I only had 1 colouring sheet left, and I gave it to my little sister. I was really proud of my work, and I felt good about it. And then after an hour, we had to leave, and then we came back to school and then we did some writing for the newsletter, and I got to visit Soft again at 2 pm!!!! Overall, it was a really fun day! Thank you for reading my writing, from Millie.

Milly E 3/4 L

On the 28th of June 2017, the grade 3/4s went on a little walk to Soft Café to man their landmark projects. Isabella and I did our project on Rottneest Island. We had approximately 24 customers! The 5th customer was Miss Oxley. We had a great time!

Matthew E 3/4 L

On the 28th of the 6th $\frac{2}{3}$ L went over to Soft and set up their Landmark Expo things. There were a stampede of customers but some people had 3 or 4 customers, Lincoln and I were one of those people. It was 10.30 am when we had to pack up and leave, when we got back we did some exciting writing and that's when I did this, so thank-you for listening.

Riley G 3/4 L

3/4 L went to Soft Café to man up our stations. Goran and I put our hand outs in front of us. My mum came over to Soft. Goran and I got 6 customers. My mum loved the effort we put into our project. We left the café and went back to our classroom.

Hudson G 3/4 L

One day twenty six children travelled to Soft Café. They used the pedestrian lights. We left at 9.15 am sharp. We walked into Soft Café. We gave out brochures. People asked questions like why did you pick the Melbourne Cricket Ground. They asked so many different questions about the MCG. I even had a presentation. It was amusing, very amusing.

Goran R 3/4 L

Whoopie! I'm finally at school all ready for our Landmark Expo at Soft Café. When the bell went we all ran down to the classroom and sat on the floor and listened to Miss Oxley say the roll and talk about the Landmark Expo. Then we lined up ready to go out into the teacher's way which is in the garden. We started to cross the road and then walked to the wonderful Soft Café. It took approximately 3 minutes to get there. We entered Soft, there were a couple of people having a coffee, but our is in the back room. It looked beautiful.

We started at approximately 9.20 and our first customer was my Nan who I was waiting for and then we had 3 more visitors and heaps of kids. Then we had a walk around after the expo, then we walked back to school and went on with our day.

Maddison R 3/4 L
